

RASHA BAIG

JUNIOR DEVELOPER

201.923.4147 | RASHA.BAIG@GMAIL.COM | ALEXANDRIA, VA

PROFILE

Junior developer seeking an opportunity to channel my creativity into developing meaningful and practical solutions. Experience with Javascript (MERN) stack. Prior background in public health & nonprofit development.

SKILLS

- **Front-End:** HTML5, CSS3, Javascript, React, and Bootstrap
- **Back-End:** MongoDB, Express, and Node
- Git/GitHub
- User Experience
- Project Management

PROJECTS

Software Engineering Immersive
General Assembly **Washington, DC**
March 2019-June 2019

Software engineering bootcamp.

Portfolio projects at 9 weeks:

- Developed a game using HTML, CSS, and JavaScript.
- Built and deployed a JSON API with RESTful routes and CRUD functionality.
- Developed a full stack app in a team setting. Technologies included MongoDB, Mongoose, Express, React, and Node. Responsibilities included developing schemas and CRUD functionality on the back-end, creating components and routes on the front-end, developing wireframes, CSS styling, and deploying back-end with Heroku.
